March 30, 2020

Dear Infants & Toddlers Families:

We hope that you and your love ones remain safe and healthy during this COVID-19 crisis. The safety and health of everyone is our greatest priority during this time.

Due to these unprecedented circumstances, school systems and local lead agencies across the nation continue to address the issues related to serving our families enrolled in Infants and Toddlers Programs, while respecting the need to keep families and providers safe. Continuity of learning for our families is a priority for Calvert County Public Schools.

Now that our service coordinators and providers have returned to duty through distance learning and remote strategies, they will be reaching out to you to address your current needs and amend your IFSPs when needed. Home visits as well as parent trainings may continue to be provided in a virtual manner if that is something accessible to you. Some community activities are also being offered virtually and your service provider will continue to keep you informed of the different options. We remain mindful of the fact that not all families have access to technology or receptive to that form of communication. Please let your service coordinator know of any barriers you may have to access technology such as internet access or device so we can work on alternatives and provide you with resources available in the community.

We are working steadily to develop a variety of tools, resources, and methods to continue working with our families during this crisis, while ensuring the well-being and health of families, staff, and the state of Maryland.

Sincerely,

Christina Harris
Director of Special Education
Calvert County Public Schools
