

Dear Parents/Guardians and Staff:

Calvert County Public Schools has proposed a plan to reopen schools in phases for students in pre-K through Grade 2. Earlier today, families of students in those grades received a survey asking them to commit either to continue virtual school or return to school on a hybrid schedule, pending approval of the plan by the Board of Education.

A reopening plan for students in Grades 3-12 will be considered this fall. Families will receive information as it becomes available.

The Proposed Reopening Plan for Pre-K Through Grade 2 is available via the link below or on the COVID-19 information page on our website.

In addition to our youngest learners having the option to return to school, students at the Career and Technology Academy (CTA) will return to school in four phases, based on grade level and program requirements. Families of students who attend CTA will receive information when it is available.

Thank you for supporting your student(s) during this time of virtual learning.
